

START  
SUMMIT

MARCH 24 & 25 2017

## STUDENT TRACK

After the **START Summit 2016** brought together **1500 participants from 50 different countries**, the planning of the START Summit 2017 is on full speed.

Once again our conference will be Switzerland's **most important gathering of investors, young entrepreneurs, start-ups and international companies** seeking for new market opportunities. The cooperation with industry leaders and global shapers will make the START Summit Europe's **most important hub for connecting business and technology**.

The START Summit is going to focus on today's and tomorrow's relevant topics such as **artificial intelligence, augmented and virtual reality, internet of things and the blockchain technology**.

To make the START Summit a unique experience we organize inspiring **speakers, workshops, networking opportunities**.

Get inspired by our speakers, learn about future technologies and market opportunities, meet innovative companies and potential co-founders!

### KEYNOTE SPEECHES

The START Summit offers the perfect platform for successful entrepreneurs, inspiring thinkers as well as scientists to share experiences, ideas and revolutionizing approaches. **Aubrey de Grey** (Futurist), **Roland Siegwart** (Professor ETH Zürich) and many more will attend the START Summit 2017.

### WORKSHOPS

Our **closed and open workshops** are designed for you as future entrepreneur or entrepreneurial minded student to learn more about relevant **technologies, venture capital** as well as a **start-up's everyday challenges**. Benefit from tools, instruments and knowledge to found your own business soon!

### JOB OPPORTUNITIES & NETWORKING

Our event app will allow you to get in touch with a lot of innovative corporates & start-ups with interesting job opportunities. Meet students from important international universities, find your co-founder or learn from each other's ideas.

### GAME-CHANGING TECHNOLOGIES

To make the technologies **IoT, AI, AR/VR and blockchain** accessible to our participants, we offer panels, speeches and workshops about these revolutionizing topics. Learn more about how the world will change the next decades.

Speeches, Workshops, Networking Opportunities, Free Accommodation, Food&Beverage, Travel Support
