

# PRODUCT MANAGER

BERLIN PRODUCT FULL-TIME

Anyon's passionate team builds and invests in real estate technology. With our strong ecosystem including experts, infrastructure, customers, and capital we have a unique position to turn a variety of innovative ideas into reality.

Our first venture, Briggen, has the mission to make your facility work for you. Briggen combines cutting edge, highly secure, technology for streamlined identity and access management, indoor navigation, and workplace assistance.

## YOUR MISSION

- Defining and validating the problem-solution fit of new venture ideas
- Understanding the business model's operational processes
- Prioritizing the product roadmap and specifying features
- Collaborating across the design and the development team to build the product
- Managing stakeholders and ensuring everyone is on the same page
- Measuring product performance and optimizing for defined KPIs

## YOUR SKILLS

- Frighteningly organized... it scares people
- Proactive. You look for problems and inefficiencies, and find expedient solutions to them
- Experienced in building products and delivering them to market
- Adept at working with excellent engineering teams
- Able to manage complex and constantly-changing engineering projects – seeing both the big picture and bringing purpose to the minutiae of the day-to-day work
- A concise writer who can design engineering specs and collaborate with your team to get all the edge cases figured out
- Excited and inspired by new technology and eager to incorporate it into your work
- Humble – because you know you don't have all the answers

We are fascinated by technology and building great products – and if you do too, then join our team with lots of opportunities to grow – personally as well as professionally.
